Description

Description

The Sign up functionality allows users to sign in to the OpenSky page using a valid account.

Preconditions

- the client must have access to a PC.
- the client must have Chrome browser installed on the PC.
- the client must have access OpenSky Website: Open Chrome browser and navigate to the OpenSky website
- the client must be able to access the Sign Up page for the OpenSky website
- the client must have to confirm the account with the email address registered for OpenSky website

Steps to reproduce:

Open the Chrome browser

Go to http://www.opensky.com

Click on " Sign in " button

Enter valid email adress on the email field

Enter the password on the password field

press the log-in button

Verify the personal inbox

The inbox is empty from Opensky sender

Acceptance Criteria:

The user recived the confirmation email in personal inbox

Actual results:

The user doesn't receive the confirmation email

[OK-22] the client doesent get the error message for empty password field login
